PRESS RELEASE

THE SIGMON GROUP'S UNIQUE CHEM/BIO PROTECTIVE TACTICAL SUIT RECEIVES NFPA 1994 CLASS 3

Chesapeake, VA, -- The Sigmon Group (TSG), LLC announces successful testing for NFPA Class 3 certification for its Chemical/Biological/Radiological (CBR) Tactical Suit by the Underwriters Laboratory in Raleigh, North Carolina. **The Tactical Suit is the first one of its kind to be certified to the NFPA 1994 Class 3 standards.**

This Suit is designed for fire and emergency services personnel responding to chemical/biological terrorism incidents, or for fire and emergency services personnel exposed to victims or materials during assessment, extrication, rescue, triage, and treatment operations at or involving chemical/biological terrorism incidents. The suit can come packaged in a convenient easy to use kit bag. The CBR Tactical Kit contains the one-piece suit, designed to go with a NIOSH CBRN approved APR mask. Additional product information can be found at <http://www.theSigmonsystem.com>.

In addition to CBR protective clothing, The Sigmon Group, a veteran-owned small business, headquartered in Chesapeake VA, has provided diversified quality engineering, technical, and management services to agencies of the U.S. Government, Government prime contractors, and commercial industry since 1997.

Receives Certification to NFPA 1994 Class 3
